

Divemaster Course FAQs

When can I start?

Whenever suits you. We can be flexible with the Divemaster Course and tailor it to your needs. You can get started with the elearning as soon as you book.

How long is the course?

We think 6 weeks is ideal, however if you're short on time 4 weeks is sufficient. Likewise if you want to dive more and stay longer then no problem!

What equipment do I need?

We include all the main pieces of gear, particularly the tricky ones to travel with such as BCD, Fins, Regulator etc.

We require you to have your own: Mask/Snorkel, SMB/Reel and Dive Computer.

We highly recommend all our professional candidates to have their own gear if possible.

How many dives will I be able to do?

Well, that's up to you! Our Divemasters average 60-100 dives whilst they're here. We schedule 3 daily boat dives plus regular night dives, so on the busier days you can do 4 if you're up for it.

What if I don't have the prerequisites?

Not a problem. We can organise any additional qualifications or dives you need to start the course, for a great price too. Get in contact and we can discuss your options.

What's the visa situation?

When you land in Honduras most nationalities are eligible for a free 3 month tourist visa which can be extended to 4 months when you're here on Roatan.

If you arrive overland your tourist visa is usually for 1 month only.

Do you offer free internships?

No. We firmly believe our Divemasters in training are here to learn and not to be used as 'free labor', nor do we expect our instructors to deliver world-class instruction for free. We don't offer free internships because the course is about you, not us.

Do I have to complete it in one go?

No, not at all. Most people will naturally stay for the duration of the course, but if you can't get all the time off work at once, or you need to leave unexpectedly, we have a record of your training and you can come back anytime to continue your course.

Can you help me find accomodation?

Yes, Roatan has lots of options for people wishing to stay for a longer period. We can use our local knowledge and contacts to help find a suitable place. It's a lot easier to find somewhere appropriate when you're here on the island, as most advertised places online are aimed at the short-term traveler. We do not include accommodation with our courses.

How do I contact you?

Easiest way is to send a form on our website and we'll reply ASAP. Otherwise you can email our Course Director on protraining@reefgliders.com, or Whatsapp: +504 9335 3374 for more information.
